

## Shireland School Infrared Heating System

Infrared Heating Installation

### Customer brief:

To provide a heating solution for cold classrooms.

Education

West Midlands

12 x 0.43  
kW Infrared  
Heaters

### Cost Effective Space Conscious Heating.

Shireland Collegiate Academy is a school based in the West Midlands which was looking for a new heating system. Phase 1 of this project was to heat 3 cold classrooms and monitor the cost effectiveness of the solution.

### Solution

- 12 x 0.43 kW panel infrared heaters were built into the ceiling.

### Results

The infrared heating system is constantly being monitored

It shows an 80% saving compared to gas
